Sir,

First let me commend you on this proposed upcoming Bill. It's been a long time coming in my opinion as a member of the public, and also as a long time recipient of unsolicited calls, sms's and faxes from various agents, service providers etc etc. It's a move in the right direction no doubt, in the face of todays fast paced media and also our awareness of personal rights.

This Bill bodes well for our society on a whole as we should not be seen as apathetic towards violations of our privacy when we cannot even prevent contact from persons/parties whom we as private citizens have no wish to have dealings with or at the very least, have a say in what info we desire to receive on our various devices.

Thank-you very much for your hard work and looking forward to This being passed as law the soonest possible.

*Regards,
Jeffrey Chan*
