

FACTSHEET

KEY FINDINGS FROM GOVERNMENT BUG BOUNTY PROGRAMME

The Government Technology Agency (GovTech) and Cyber Security Agency of Singapore (CSA) have successfully concluded the Government Bug Bounty Programme (GBBP) from 27 December 2018 to 16 January 2019.

2 The GBBP is part of the Singapore Government's ongoing efforts to build a secure and resilient Smart Nation. By bringing together a community of cyber defenders who share the common goal of developing a safe and resilient cyberspace, the GBBP aims to build collective ownership over the cybersecurity of government systems and websites, which is vital to achieve Singapore's Smart Nation goals.

Key highlights

3 The GBBP successfully galvanised the global and local communities of cyber defenders to identify vulnerabilities in government ICT systems.

- 400 'white hat' hackers tested five Internet-facing systems¹
- Twenty-six (26) validated vulnerabilities: seven were considered low severity, 18 were medium severity, and one was high severity
- All vulnerabilities have been remediated
- Total bounty paid out: US\$11,750
- One-quarter of participants were from Singapore
- Seven out of the top 10 awarded bounty participants were from Singapore

4 GovTech and CSA will expand the next edition of the GBBP to include more government ICT systems and websites.

¹ The five systems were: Gov.sg website; REACH website; Ministry of Communications & Information's Press Accreditation Card (PAC) Online; Ministry of Foreign Affairs (MFA) website; and MFA eRegister.

About Government Technology Agency

The Government Technology Agency of Singapore (GovTech) is the lead agency driving Singapore's Smart Nation initiative and public sector digital transformation. As the Centre of Excellence for Infocomm Technology and Smart Systems (ICT & SS), GovTech develops the Singapore Government's capabilities in Data Science & Artificial Intelligence, Application Development, Sensors & IoT, Digital Infrastructure, and Cybersecurity.

GovTech supports public agencies to manage enterprise IT operations and develop new digital products for citizens and businesses. GovTech is the public sector lead for cybersecurity, and oversees key government ICT infrastructure, as well as regulates ICT procurement, data protection and security in the public sector. GovTech is a Statutory Board under the Smart Nation and Digital Government Group (SNDGG) in the Prime Minister's Office.

About the Cyber Security Agency of Singapore

The Cyber Security Agency of Singapore (CSA) provides dedicated and centralised oversight of national cybersecurity functions, and works with sector leads to protect Singapore's critical services. It also engages with various industries, and stakeholders to heighten cybersecurity awareness as well as to ensure the holistic development of Singapore's cyber security landscape. The Agency is part of the Prime Minister's Office and is managed by the Ministry of Communications and Information.
