

FACTSHEET

OUR SINGAPORE FUND FOR DIGITAL READINESS

In order to enable more passionate Singaporeans to play a part in spearheading community projects for the community, by the community, and prepare fellow Singaporeans to seize the benefits of a digital future, MCI and IMDA have partnered MCCY to create a new stream under the Our Singapore Fund (OSF) to support ground-up initiatives.

2 Eligible projects that meet both OSF (demonstrating the Singapore Spirit and enlarging the social commons) and Digital Readiness (preparing citizens to be digitally ready) objectives may receive funding of up to \$20,000 to support up to 80% of their project cost. There are four application windows per year: 15 Mar to 15 May, 15 Jun to 15 Aug, 15 Sep to 15 Nov, and 15 Dec to 15 Feb.

3 This initiative supports the Digital Readiness Blueprint recommendation of providing support for projects that create opportunities for community participation.
